Perfect Design,
Easy To Use

LEGEND SLIDE

INNOVATIVE LEGEND SLIDING SYSTEM, ESTHETIC DESIGN, EASE OF USE, AND FLAWLESS INSULATION

TOTAL
FACADE SOLUTIONS

Deceuninck manifests a superior level performance in sound and isolation with the **New Legend Sliding System**. Esthetic design and ease-of-use for the users are the most prominent features of the **Legend Sliding System**, which provides high-level protection against cold weathers during winter and hot weathers during summer.

You have many reasons to prefer the Legend Sliding System;

The **Legend Sliding System**, which offers maximum benefit to spaces with its high performance, strong isolation and ease-of-use, has a wing structure of 76 mm with 5 chambers. Glasses up to 52 mm thickness can be used in the Legend Sliding System, which claims to possess a much better air isolation compared to other sliding systems. The series offers alternative decoration possibilities with different color options and it establishes a balance between energy efficiency and comfortable living.
